Reagan To Speak At Fund Raising Event

The major 1966 Republican fund-raising event in San Diego County, the 15th annual $100 Per Plate Dinner, will be held on Friday, Nov. 12, in the new Community Concourse, according to RAdm. Leslie E. Gehres, USN (ret.), Chairman of the Republican Central Committee of San Diego County.

The featured speaker at the dinner will be Ronald Reagan, potential candidate for the Republican gubernatorial nomination next June. The selection of Reagan as the speaker, Gehres said, "is not to be interpreted as an endorsement of Reagan's candidacy. He is, however, leading our Party's polls as a possible candidate for governor and his appearance at the Central Committee's major annual event will allow San Diego County Republicans to hear him and judge for themselves his qualifications."

"GOP Opportunity '66" is the dinner theme, announced by Dinner Committee Co-Chairmen Richard G. Capen and Frank Gard Jameson. The theme will be carried out on the tickets, printed souvenir program and stage backdrop. The theme and symbol were originated by Kenneth Kitson, publicity chairman for the dinner.

R. E. Hazard, Sr., and Victor Lundy are Honorary Co-Chairmen for the dinner. Ticket Sales Co-Chairmen are Frank A. Thornton and Edward A. Breitbard. Roy M. Ledford, M. D., who served as chairman for the successful 1964 dinner, is organizing the Healing Arts Ticket Sales Sub-Committee.

All of San Diego County's Republican legislators will be honored at the dinner, along with GOP State Chairman Gaylord B. Parkinson, M. D.

Mrs. L. Sherman O'Reilly is in charge of arrangements and decorations for the dinner. Seating for the anticipated crowd of 1,000 persons will be in groups of 12 at large tables The event will begin with cocktails at 6:30 P.M. and dinner at 7:30 P. M.

Funds raised from ticket sales will support the operation of the County Central Committee and help to meet expenses of the state and national committees. Most of the money raised will be held for use in the 1966 campaign.

Broadway Owners To Meet Friday

A meeting of Broadway property owners is scheduled in Lemon Grove Friday at 11 a.m. at Michael's.

The meeting, called by Charles Kerch of Curtis Coleman Co., is for transferring Broadway frontage property to the County of San Diego. The property extends from Imperial east to Kempf.

Several property owners have already agreed to the transfer.

The property involved is the part now used for parking. Kerch said the county would be required to keep the property repaired and keep it clean if the county accepts it. It would also remove that part of the property from the tax rolls, he said.

The county could install traffic control curbs along Broadway as it has done from Olive to Massachusetts, it is believed.

BoA Xmas Club To Pay $125,000

Santa Claus is coming to town early this year for Lemon Grove-Spring Valley residents.

They will soon be presenting themselves with a $125,000 gift, it was announced today.

The local managers of Bank of America's Lemon Grove and Spring Valley branches reported that the money accumulated in the bank's Christmas Club accounts will be distributed beginning Nov. 15th, in time for the holiday shopping season.

The local savings are part of $80.3 million accumulated by nearly 435,000 Christmas Club savers in Bank of America branches throughout California since last Christmas.

The $80.3 million total in the thrift program's 42nd year of operation surpasses the record high established last year by $700,000. This year's Christmas Club checks will average $184.85, up from last year's $178.35.

A SHOCKING SITUATION

Wire Snipper Tripped; Police Say He Clipped

SAN DIEGO (CNA) — Some believe that "once burned is twice forewarned," but Gerald P. Meriwether, 44, of San Diego, may not have heard the old saw.

Meriwether was knocked from a Bonsall power line pole in 1963 while attempting to steal the electrical wire. He will go on trial Dec. 6, in Superior Court, again for interferring with transmission lines, this time in Spring Valley.

Meriwether, who is on probation for the 1963 crime, was arrested Sept. 2 for interferring with transmission lines at 1707 Jamacha Blvd. Deputies found a 15-foot aluminum pole, electric wire, rope and other equipment at the scene. After Meriwether's picture was identified, officers searched his home and found climbing spurs and other equipment.

Meriwether was arraigned and given a preliminary hearing in El Cajon Municipal Court Sept. 21 and bound over to Superior Court. He pleaded innocent Wednesday and Judge Verne O. Warner permitted him to remain free on bail until the trial.

In 1963, Meriwether was found lying near Mission and River Roads. He had a broken leg and had lighted a small grass fire to attract attention. He said he fell in a hole.

Officers later found two pairs of wire cutters and found that three wires, one carrying 12,000 volts, had been cut.

Meriwether was convicted and granted three years probation. He admitted that he had been knocked off the 30-foot pole by the electric jolt and said he considered himself lucky to be alive.

Meriwether was sentenced in El Cajon Municipal Court last year to serve 180 days in custody for petty theft at the Grossmont Shopping Center. He was permitted to continue on probation for the transmission line interference charge.

The girls were briefed by Hollingsworth Saturday at the Singing Hills country club and are now selling Mother Goose parade stickers and memberships. The nine highest point girls on Oct 30 will become finalists, and on Nov. 6, judges will pick the new princess and maid of honor, it was announced.

Tax Consultant Testifies For Grand Jury

SAN DIEGO (CNA) — James C. Tooke, Castro Valley tax consultant and key figure in the investigation of alleged mis-doings in the assessors' offices of San Diego and other California counties, testified today before the San Diego Grand Jury under court order and under immunity.

Tooke was granted immunity from prosecution and ordered to answer questions by Superior Court Judge George A. Lazar.

Judge Lazar issued the order at the request of District Attorney Don Keller after Tooke refused to answer Keller's questions before the grand jury. Tooke invoked the fifth amendment. The judge's order grants him immunity in exchange for answering questions that might be self-incriminating.

The questions Tooke refused to answer were: "Within the past three years, have you, in your own behalf or in the behalf of any person or persons, presented to the assessor's office in San Diego county or any officer or employe of that office, personal property statements which falsely stated the amount of property subject to assessment?"; "Within the past six years, have you paid any money to any member of the assessor's office of San Diego

East County Visit Spurs Decency Bill

Warren Dorn, member of the Los Angeles Board of Supervisors was in Lemon Grove and Spring Valley Friday soliciting aid for passing the Decency Amendment which would tighten the control on lewdness.

He and S. D. County Supervisor Henry Boney are attempting to set up a program by which 59,000 San Diego County signatures will be obtained on petitions asking the Legislature to provide more rigid state laws.

Dorn said that a half-million signatures are needed in the state to get the issue to ballot in Nov. 1966.

Dorn said partisan politics in the legislature's criminal procedures committee had blocked restoration of the right lost in 1961 by the Carol Lane decision.

In that case a woman arrested under a local vice law was freed after a court ruled that she should have been arrested by a state law. County government cannot make laws stronger than state laws, Boney said.

Dorn said the issue is taken to the voter because of Legislature's refusal to act.

The Bill being sponsored by Dorn would change the state Constitution to allow cities and counties to pass law regulating criminal aspects of sex.

Dorn said his Bill would restore the right to local government to vigorously legislate against: criminal aspects of sexual activity; lewd and dissolute conduct; indecent public exposure; the spread of venereal disease, and the molestation of persons.

Dorn's name is beginning to be mentioned among local political observors as a candidate for the governor's office, it was said. Gov. Brown faces re-election in November next year.

Campus Completion Issue In Jr. College Election

Since Grossmont College was founded, students from Lemon Grove and Spring Valley have accounted for one in every three names that have appeared on the Dean's List of superior students at the junior college.

Supporters of next Tuesday's bond election to complete the Grossmont College campus appealed this week to Lemon Grove and Spring Valley voters to vote yes to enable its future GC students to maintain their high record.

"A student who lacks the facilities to study lacks part of what it takes to be a superior student," said Karl Tuttle, chairman of the campus completion committee.

The $3,500,000 bond issue will increase the college's capacity from 2,500 day students to its master - planned capacity of 4,000 day students. This fall, enrollment exceeded day capacity by 800 students.

Approval of the bonds would result in an average cost of $2.75 to the owner of a home with a real value of $20,000. The cost of sending Grossmont area students to other junior colleges, should the bonds fail cannot now be estimated, but would be high. It has been estimated, but would be high. It has been estimated that the district saved $800,000 in out-of-district tuition costs by building its Fletcher Hills campus.

Among the local oragnizations which are backing the bonds are: Lemon Grove Business Women's League, Lemon Grove School District Governing Board, Lemon Grove Lions Club, Lemon Grove PTA Executive Board; Lemon Grove Soroptimists, Ninth District California Parent Teachers Association (San Diego County) Spring Valley Kiwanis Club and Spring Valley Junior High School PTA Executive Board. the chambers of commerce of Lemon Grove and Spring Valley, and the League of Women Voters.

Division of the $3,500,000 in bond moneys will be made as follows: 60.5 percent for classrooms and teaching stations; 13 per cent for furniture and equipment for the classrooms and teaching stations; 8.5 per cent each for mandatory costs such as engineering, for matching funds for a district auditorium, and for construction contingencies, such as cost increase; and 2.5 percent for basic landscaping, including irrigation facilities.

Demos Endorse Bonds

The Spring Valley Democratic Club, at its Oct. 7 meeting, voted to endorse the $3,500,000 bonds, requested by Grossmont College for the Oct. 19 election.

Nation's Press Must Remain Strong and Free

This is National Newspaper Week.

This is the week that a newspaper performs an introspective examination of itself to see if it is performing the duties guaranteed under the Constitution.

Nowhere else does a newspaper have so much freedom from censorship as it does in the United States and nowhere else does anyone take freedoms so much for granted.

Ironically, the pressure grows stronger to curtail the presses' freedom as the government becomes more "liberal." Thus, a constant battle exists in the United States to keep these "freedoms" meaningful.

Every year the nation's newspapers re-evaluate themselves at National Newspaper Week

The DIMMER VIEW

by MAX GOODWIN

Automation: Does It Help?

It was A. E. "Bob" Howell, the tax expert and noted parade rider who called it to our attention.

Howell, himself an ex-Internal Revenue Tax officer, provided a recent copy of FEDERAL TIMES, a nationally circulated newspaper, to show what automation had done in the Internal Revenue Service.

As most taxpayers are aware, IRS is converting to Automatic Data Processing. The conversion was designed for two purposes. One, to hook more taxpayers on the point of his own petard if he should be trying to rook Uncle Sam. And to provide a more efficient service. Even taxpayers know that means more production with less employes—thus, a reduction in tax costs.

Well, it just doesn't work that way. It was Sheldon S. Cohen, Commissioner of IRS who is reported for having said it. In September in Washington, at the 27th Annual Convention of the National Association of Internal Reveue Employes, Director Cohen said that the "more efficient" system will allow IRS to shoulder an ever increasing workload.

With a reported "note of pride in his voice", he said the changeover to Automatic Data Processing" is being accomplished without the predicted evils of having to run a parallel operation, without laying off employes and without antagonizing the taxpayer."

In short, Director Cohen is saying that ADP is dandy. While it didn't create more jobs, it didn't cut any off either.

We suppose IRS should be modernized thrugh automation but it would seem that the cost ought to be justified by a reduction of employes on the IRS payroll.

Break The Law To Avoid The Draft

We searched our notes on the subject, but nowhere have we found it reported that the campus uprisings, and other acts of civil disobedience by young people are related to the draft.

Yet, there is strong evidence that the relation is very real.

It was Judge Luther N. Hussey, a Municipal Court Judge who lives in Lemon Grove, who became a central figure in a discussion of the probable connection during a recent judges' conference in Sacramento.

He noted, he said, that young men were getting involved in just enough lawlessness to be able to make a plea for probation. The civil rights movements and the fatuous belief of the Constitutional right to use vulgar language on college campuses and in other places had just enough irrational rationale in them to cause jurists to consider carefully before exacting penalties. College attendance in itself is also a good reason for asking leniency. What better reason for sympathy could be asked than a young man who would further his education.

Judge Hussey and some of the other jurists began to question the sincerity of these defendants. A quick check with Selective Service Department proved their fears justified. Young men under probation are not accepted for service in the Armed Forces.

We asked Lew Lipton, director of Selective Service in San Diego about it and his answer was short and to-the-point. "The Armed Forces is not a catch-all for people with problems," he said. He also stated that a judges' organization had set up a meeting with his Department to discuss the matter.

Meanwhile, Judge Hussey is considering the policy of "sending 'em to jail and having it over with. That way," he said, "penalties are executed and young lawbreakers can go about their business without a probationary ax hanging over their heads."

"It also will discourage lawbreaking to postpone the draft by way of probation," he added.

Petition Put Forth At LM-SV Meeting

Mrs. Mary Wade of 9122 Barneveld St., Spring Valley, appeared at the Monday night meeting of the board of trustees of the La Mesa-Spring Valley School District and said she had a petition, signed by 219 parents of La Presa Elementary School children, requesting that the Amidon System of teaching be brought to that school. She said there is much enthusiasm expressed by parents in the Spring Valley area regarding the system, and that knowledge of the system is wide spread.

There also has been some rumor of having the system put in at Spring Valley Elementary School, Bancroft, Lemon Avenue and Northmont Schools.

Hardy Kuykendall, one of the newer members of the board, said Monday night that if such a move is begun, that he will fight it all the way. He said that if the system should be spread, he feels that some of its bad points should be brought out. He said that because the system was adopted before he was elected to the board, he had not talked against it.

The problem to form a negotiating council for teachers in the District, was postponed by the board.

Also postponed was a consideration of assessment practices on unimproved land in the District, which board member Victor Walton had presented at an earlier board meeting.

WCTU Activities Recalled On Eve Of 88th Birthday

BY RAY WISSLER

Many peple don't know it, but the Woman's Christian Temperance Union is not merely a thing of Grandmother's dim past. The once-famous anti-alcohol society is still active, it was pointed out by Mrs. Rhoda W. Foster of Lemon Grove in a recent interview.

Mrs. Foster, who will celebrate her 88th birthday Oct. 28, was active in the organization until three years ago. At that time illness slowed her efforts to banish booze forever.

She was not positive whether the WCTU war organized in 1869 or 1870. Regardless of the exact year, the exact name has always been somewhat misleading. WCTU members do not advocate "temperance"—they advocate (nay, demand) complete abstinence from alcoholic respite.

"They're sull doing a lot more than they get credit for," she said, adding that the major emphasis today is in lobbying for legislation.

"I got interested in the WCTU when I was a girl of 12 or 13," she recalled. "A speaker gave a talk at the school house (in Springfield, Mo.), and you know, in those days, having a speaker come to town was quite an event. We didn't have all the cultural activities in local communities that we have today.

"Well, this speaker asked for pledges, and I took the pledge. A body wouldn't think that a pledge taken by a young girl would be so important throughout life. But the longer I lived, and the more I saw the results of drinking, the more opposed I became to it."

Mrs. Foster moved to San Diego from Missouri in 1919, and for many years was active with the University Heights (WCTU) Union. She was program chairman for 12 years. She said the local unions meet once a month for singing and prayer and a program, which often features a speaker. The appropriate chairman gives temperance news of the day.

"Sometimes we would put on skits," she recalled.

Mrs. Foster keeps up with temperance news in the ten-issue-a-year "Southern California White Ribbon," an official organ of the WCTU, published in Long Beach.

Widowed 25 years ago, Mrs. Foster now makes her home in an attractive small rest home, Acacia Lodge, operated by Mrs. Helen Perry at 3260 Acacia St., Lemon Grove. She keeps busy sewing "panels" for patchwork quilts, a project of the First Congregational Church. This is "Project Concern," a mission project for a doctor in Viet Nam. At the time of the interview she had made about 600 of these panels.

LONG-TIME WCTU MEMBER — On the eve of her 88th birthday, Oct. 28, Mrs. Rhoda W. Foster of Lemon Grove recently recalled her many years as an active member of the Woman's Christian Temperance Union. Here she displays her sewing handiwork, which she has been doing for "Project Concern," a mission project of the First Congregational Church. She has made more than 600 of these panels since the project started.

Saturday, the church Luther League will hold a car-wash from 9 a.m. until 5 p.m. at Bud Young's Chevron station in Lemon Grove. There will be a charge of $1 per car. Proceeds will provide funds for transportation to the district Luther League convention in November.

A car won't start without sparkplugs and man won't either, but fortunately generally a man has a sparkplug wife.

Spiritual Knowledge Key To Man's Needs

Humanity's needs will ultimately be met and harmony will be fully established through mankind's increasing spiritual understanding, Neil H. Bowles of Atlanta, Ga., said in an address here Monday.

"Today, we are witnessing," he said, "the rapid awakening of the dormant, the slumbering thought in many parts of the world. This awakening will irresistibly lead those who are receptive to truth on to a search for a more spiritual sense of life."

Mr. Bowles, a Christian Science teacher and practitioner, is on extensive tour as a member of The Christian Science Board of Lectureship.

He spoke in the church edifice, 8262 Allison Ave. under the auspices of First Church of Christ Scientist, La Mesa, on the subject "Christian Science Meets Humanity's Needs."

Keep checking to see if someone is following you too closely, warns the Allstate Motor Club. If so, pull over to the right and signal the driver to pass you.

"LORD, teach us to pray."

In a sense it may truly be said that any offering to God is prayer. Public worship, devotional reading, charitable deeds, work for a worthy cause all or any of these may partake the quality of prayer if they are made an offering to God. But there is a very large if in that statement.

S.V. Visitor To Israel, 18, Back With Vivid Impressions

BY RAY WISSLER

During Robert J. Hamilton's visit to the Gaza Strip in Israel last summer, girls with submachine guns guarded the barracks in which he slept. Teenage girls in the Israel army is standard operating procedure to 18-year-old Bob.

It's been sometime since Bob returned from his trip of several weeks to Israel, but the memories of the experience were still fresh last week. And he has some 400 color slides he took to refresh his memory if it should fade.

The young Spring Valley pilot was awarded the all-expense trip for being one of 11 internationally outstanding cadets of the Civil Air Patrol (CAP). Only five from the United States were so honored.

Son of Mr. and Mrs. Robert C. Hamilton, Space 16, Sweetwater Lodge, Bob graduated from Monte Vista High School last June and has started studies in engineering and physics at the University of California, Santa Barbara. He also received a $1,000 CAP scholarship toward his college education.

Among the 11 youths on the Israel trip in July and August, Bob said, were five from the United States, two from Norway, two from Canada, and two from the Netherlands. Accompanying them were a U. S. Air Force captain and a civilian escort.

Israel air force officers acted as hosts for the group. By air and ground transportation they visited many places, including Nazareth, the Red Sea, the Sea of Galilee, to name just a few. Their escorts did not take them to see the Dead Sea because it was too hot at the time.

Bob said his strongest initial impression was that "there is a tremendous amount of construction work going on." Of the desert he said:

"The desert is just about like El Centro. They're making it look like Balboa Park."

Friendly Hosts

Everyone was very friendly, he said. "I learned quite a few words of Hebrew, but I couldn't make myself very clearly understood when I had to refuse some of the huge amounts of food they insisted on giving us. I guess I hurt some feelings when I told my hosts and hostess they would make a glutton of me. I crammed down all I could."

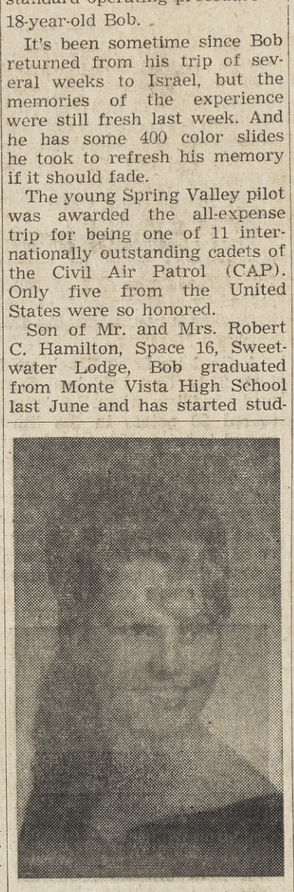
Bob stayed with a Ramat Gan policeman, who spoke English, and his family. They had lost a son about Bob's age in a border battle with the Arabs. Most of their social activities were with other young men and women.

Bob was somewhat prepared for his visit, according to his father, who said Bob had read "everything he could get his hands on about Israel" before leaving.

The American contirgent was flown by U. S. Military Air Transport to Frankfurt, Germany, after five days in Washington, D. C. A West German air force crew and plane took the assembled group to Rome, where they stayed over night. From there they were in the hands of an Israel air force crew with their own plane.

On the way back in August they spent five days in Germany and saw much of West Germany.

Bob earned his private pilot's license at the age of 17, having made his first solo flight at 16. He also holds a general class amateur radio license.



ENGAGED — Mr. and Mrs. Alvaro Lauriano of 3027 Carlton, San Diego, have announced the engagement of their daughter, Mary Charlotte Hartmann, to Airman Second Class Richard E. Liddle, son of Mr. and Mrs. Robert E. Liddle, 1701 Presioca, Spring Valley. Miss Hartmann is a student at Point Loma High School in San Diego and will graduate in January. Mr. Liddle, presently stationed at George Air Force Base, Calif., graduated from Mount Miguel High School in 1963. An early spring wedding is planned.

Too many drivers are heading for tragedy because they drive too fast for prevailing conditions. Speed must be adjusted to road, weather and traffic conditions, particularly during light drizzles and at night.

ISRAEL SOUVENIRS — Bob Hamilton of Spring Valley (inset, right) displays a souvenir he brought back from Israel. He was one of five Civil Air Patrol cadets elected throughout the United States for the all-expense-paid trip late this past summer. The photo above is from a scrap-book, one of which was given to each of the 11 young pilots selected for the visit from four nations. It was taken on the campus of the University of Israel.

Eleven Area Students In SDS Honor Program

A group of 80 freshmen, including 11 from two local high schools, have been accepted into San Diego State's honors-at-entrance program.

The program gives students four years of individual counseling, priority in course selection and access to restricted courses that move quickly from basic to advanced aspects of psychology, economics, and political science.

Later as sophomores the students will be granted admission into an honors colloquium, "Humanities 66." Three professors from the English, history and philosophy departments direct this advance course. The class studies such works as Homer's "Iliad," Euripides' "Trojan Women," Pasternak's "Doctor Zhivago," and Brechts "Mother Courage.'

The honors program requires at least 15 semester grades of "A" during the last three senior high school years and a score of at least 91 per cent on an American College Testing Program exam.

Dr. Sidney L. Gulick, dean, arts and sciences, San Diego State, initiated the honors program five years ago.

"Each student in the program is assigned a faculty adviser. The adviser directs the student in a curriculum that promises to fulfill his potential capability. The success of the program is reflected by the high percentage of students who appear each semester on the dean's list," Gulick said.

The local students and their high schools they attended are as follows: Ronald James Baker, Monte Vista; Carole Linda Brown, Mt. Miguel; Thomas Frank DeChant, Mt. Miguel; Kathleen Mae Dittamore, Mt. Miguel; Floyd Halterman, Monte Vista; Thomas Lee Hollar, Monte Vista; Thomas Wesley Howard, Mt. Miguel; Ethel Clair Miller, Mt. Miguel; Janet Louise Stewart, Mt. Miguel, Pamela Diane Tuve, Mt. Miguel; Linda Mae Williams, Monte Vista.

Med. Teams Awarded $14,000 For Research

Grants of nearly $14,000, for pulmonary research at Mercy Hospital, have been given two San Diego medical teams by the Tuberculosis and Health Association of San Diego County, Dr. Amorita Treganza, Lemon Grove-Spring Valley area chairman, announced yesterday.

Directors approved recommendations of the medical research committee of the local Christmas Seal agency for an award of $6,998 to Drs. Woodbury Perkins, John H. Mazur, and Jerome L. Heard—all of the Mercy staff—for "Physiological Studies in Chronic Respiratory Diseases."

The project is described as "a correlative study to discover the reasons for increase of circulating red cell mass in pulmonary cripples."

Each cotton fiber is a single cell protruding from the epidermal layer of the seed.

CHP Will Increase Uniformed Personnel

Lt. Vincent Herz of the San Diego office of the California Highway Patrol, told the Spring Valley Rotary Club on Friday that legislature has given the "go ahead" to double uniformed personnel of the CHP by 1969. The present number is 2850. There will be 551 added by Jan. 1, 1966 and 1000 per year until 1969.

Herz said it is going to be a problem recruiting these men, as men of the type needed are "few and far between." He cited that with 700 applications received for Highway Patrol officers, several hundred fail in the written test; several more hundred fail in the physical and the Patrol is lucky if 500 qualify.

In order to get applicants, Lt. Herz said the Highway Patrol conducts an extensive advertising campaign through all media. He said he himself has been on television requesting young men to apply. The requirements are simple, but stiff, he pointed out. A man must be between the ages of 21 and 31; 5 feet, 9 to 6 feet, 5 in height; with at least a high school education. But most important, he must have a spotless background.

Lt. Herz said that after a man has been accepted by the CHP, he goes through rigid training at the Academy; physical education with all the modern techniques and a series of laboratory activities, including some FBI training. He is a well-rounded officer before he goes into the field, Lt. Herz said.

Lt. Herz is a faculty member at Grossmont College, teaching police-science. He said there is hope that police-science will become a part of the curriculum in schools of higher learning throughout the state.

California has a smog problem, which is getting worse day by day, Lt. Herz said. He said there are now 8 million vehicles registered in the state and this will increase to 13 million by 1985. He said it is one of the duties of the CHP to help curb the smog problem. He pointed out that good, workable smog control devices on cars are a must and that the CHP has the duty of checking these units.

Lt. Herz said also that mechanical defects on cars account for seven percent of all accidents on the road in the near future, he said, special lanes will be set up by the CHP to check cars for mechanical defects. Warnings will be issued to persons driving defective cars. They will be given time to have the defect corrected and to present proof of the repairs. A good tuneup job on your car is essential, Herz said.

It will only be a matter of time when the CHP will be patrolling all the highways and freeways of the state, he said.

Enforcement of the law prevents accidents, Lt. Herz said. He pointed out that when an officer gives a ticket for some violation, he is not giving it for monetary reasons, but rather with the thought of preventing an accident and possibly saving lives. He said most officers have a sense of dedication. He said that some 5000 lives are snuffed out on the highways each year and some 106,000 persons injured.

Lt. Herz said he is pleading with the public to support the CHP in its endeavors. He said maintaining law and order is everybody's job. He said the American people should know that it takes more than apathy to maintain law and order.

CWU Presents Poetic Play

California Western University will present the national touring company of Classical Arts Productions of New York in two performances of "Iphigenia in Tauris," the brilliantly poetic play by Johann Wolfgang von Goethe, in the historic Greek Theatre on its Point Loma campus tonight and Friday night at 8 p.m.

The presentation of "Iphigenia in Tauris," which is set in ancient Greece and tells the intensely dramatic story of Iprigenia, oldest daughter of King Agamemnon, who is sacrificed by her father to soothe the anger of the goddess, Diana. Appeased, Diana raises Iphigenia to a temple in Tauris where by gentleness and dedication she wins from the barbaric King Thoas a cessation of human sacrifices. The King, however, spurned by Iphigenia and angered by the death of his son, threatens to resume the bloody traditional rite, and Orestes, Iphigenia's brother, and his friend, Pylades, who have come to Tauris to steal the image of Diana from the temple and return it to Greece, are to be sacrificed.

Tickets for "Iphigenia In Tauris" in the Greek Theatre at California Western will be on sale at Thearle Box Office, 640 Broadway, 239-8122, and at the Greek Theatre, 224-3119. Prices for both nights are $3.00 and $2.00 for reserved seats and $1.00 for unreserved seats.

RAMBLIN'

WITH ED LOOP

We've had an uninvited nonpaying guest living in our attic for several months. An opossum moved in. My wife and daughter kept hearing noises and waking me at three in the morning to come and listen, (you know how women are) so I finally listened and decided it wasn't a cat or a road-runner running across the roof as I had stoutly maintained. Satururday I found the varmint sleeping like a log back in a corner that was inacessible as far as removing said varmint was concerned. Sunday I looked again and he was gone; so I boarded up his front door, told my womenfolks about it and thereby became a hero first class.

At Grove Office Supply and Equipment Co., located at 7890 Broadway in Lemon Grove, we don't have any opossums, but we do have a complete line of office supplies. We know we can't make a nickel on something we don't have in stock so we try to have a good supply of general office items. Call us at 463-4494 for good service, fair prices and pleasant dealings. Remember Grove Office Supply for your office needs.

Donovan-Brown In Traffic Meet

State Assemblyman Richard J. Donovan 77th Assembly District was invited by Governor Brown to fly with him to Los Angeles last week to meet with a group of business leaders for dinner at the California Club for the purpose of discussing California's serious traffic accident problem.

The Governor told Donovan that recent adoption of U. S. Senate Joint Resolution 81 made it even more imperative that California take a hard look at the problem. The meeting was attended by about 60 of the top business executives throughout the State of California together with several members of the executive branch of government.

Donovan was the only member of the Legislature present representing the Assembly Transportation Committee which deals with traffic safety problems. The speakers of the evening were Governor Brown, discussing California's serious traffic accident problems, followed by Assemblyman Donovan.

Donovan gave a resume of what the legislative branch is doing about traffic safety problems, the matters they have under study and also emphasized his driver training law that was passed last year in the State of California which is becoming the land mark model for the entire United States and this area. Following the meeting Donovan flew back to the Capitol with Governor Brown in his private plane to return to his legislative duties.

State To Give More Scholarships

The California State Scholarship Commission this week announced an increase in the number of scholarships to be awarded for the academic year 1966-67.

The Scholarship awards will be approximately 2,500 in number and in amounts ranging from $300.00 to $1,500.00 in $100.00 intervals, varying according to the student's need for financial assistance and the tuition at the college he will attend. The scholarships may be used at any college or university in California, accredited by the Western Association of Schools and Colleges, for undergraduate study.

In order to qualify, an applicant must be a resident of California under the age of 24, a high school graduate by the summer of 1966, or have been accepted for admission by an accredited college. The applicant must also be in need of scholarship assistance to pay college tuition and necessary fees at the college of his choice.

The competitive examination for this year will be the Scholastic Aptitude Test of the College Entrance Examination Board. Applicants must arrange to take this test, at their own expense, on one of these dates: Nov. 6, 1966 or Dec. 4, 1965. Tests will be given at Point Loma High School, San Diego High School and the University of San Diego College for Men. Scores from previous regular Scholastic Aptitude Test administrations may be submitted.

Information and applications for scholarships can be obtained at Assemblyman Richard J. Donovan's Office, 1003 Plaza Blvd., Room 227, or by calling 474-2245.

MODIFIED SPORTSMEN — No. 98, driven by Roger Tipton of Lemon Grove, comes out on extreme outside in effort to catch front runner Mike Goath (92. Other cars are Ken Giebe (89) and J. Malbright (44). The Cajon Speedway Grand Prix will be staged this Saturday night in the biggest fall race of the year.

1965 Champion Wood Favorite In Feature

The blue ribbon speed classic of the year, the 75-lap 1965 Grand Prix will be the offering this Saturday night at Cajon Speedway. This will be the last point race for the speedy Sportsmen and will crown their 1965 racing champion Jim Wood of Romana. With the expection of the Oct. 30 open competition modified event set at Cajon, this will bring down the curtain on the season's activities for the season's activities for the streamlined speedsters.

Wood has been on top all season, winning fast time 5 times, the trophy dash 6 times and coming home on top with 6 main event wins. A true champin in every sense of the word, the shy Ramona rancher retired from racing in 1964, but couldn't stay away from the feel of the wheel. Coming into the final point race he leads the field by 560 points, which puts him out of reach of all.

Wood will be facing three past Grand Prix winners in his hope to cap off his championship with a grand prix win. Winners Rosie Roussel, Filmore, 1964, Dick Fries, San Diego, 1963 and Hank Henry of Ramona, who took the feature event in 1962.

20 cars will be permitted in the 75 lap main and the 25 lap semi with a big field assured for the 15 rounds of the "B" semi event. The trophy dash is set for 8:15 p.m. with qualifying flagged at 6:30.

Miguel After Second Loop Conquest

Mount Miguel established itself as the favorite for the Grossmont League Football title by downing Granite Hills, 18-6, last weekend and can take a second step tward the crown by beating rival Helix Friday night at Helix.

Helix, not blessed with its usual strong powerhouse, nipped Santana, 6-5, in its league debut. However, Santana is the loop's new addition and isn't expected to give anyone much of a battle.

The Matadors were foiled in their attempt to win the Grossmont championship last year when Helix took a 31-19 win. This year should be different.

As usual, coach Perry Miller can call on the capable signal-calling of QB Jim Baur and the running of backs Dain Demaree and Wally Johnson. The latter is a devastating blocker.

Helix is led by QB Mike Creel, who played understudy to all-CIF Barry Bronk last season.

Monte Vista, which fell to El Cajon, 22-13, in its initial loop test, will take on Grossmont High at the Miguel Field.

The Monarchs were even with El Cajon at halftime but succumbed to a last-half Brave rally.

Steve Womack scored two TD's last week and will lead the Monarch offense.

Grossmont High topped El Capitan, 21-7, also last week.

Other conference games have Santana against El Capitan at Gillespie Field and El Cajon at Granite Hills in Valley Stadium.

All games begin at 8 p.m.

Follow Rugged Road Is Scout Day Theme

"Follow the Rugged Road, Join the Scouts" will be the theme for Scout Uniform Day Friday according to Dr. Malcom Love, president of San Diego State College and Uniform Day chairman.

26,000 Cub Scouts and Explorers of San Diego County will wear their uniforms to school on Uniform Day. In cooperation with school principals and teachers, Scouts will have the opportunity to participate in speeches and activities, telling of the fun and adventure of Scouting.

The uniforms and activities of present Scouts on Uniform Day are expected to bring new boys into Scouting so that they may benefit from the ideals of Scouting, Love said.

Uniform Day is a part of San Diego County Council's program of emphasis "Breakthrough for Youth." The goal is a 5.5% increase in boys getting the Scouting program. 34% of all available boys in San Diego County are now in Scouting. This is 5% higher than the national average.

Griffs To Battle Imperial Valley

The Grossmont College Griffins shoot for their second straight win this Saturday when they travel to El Central to battle the Imperial Valley College Arabs in the first meeting between the two schools. The game is scheduled to begin at 8 p.m.

Grossmont will call on the same combination of efforts they used in last week's 21-13 win over Southwestern, a win which broke an eleven-game Grossmont losing streak and saw the Griffs win their first Pacific Southwest Conference game since entering the league in 1964.

The win was truly a team effort with numerous Griffins having their best games of the year and their career. Among those having outstanding games were: Dave Nuttall, 4 catches for 56 yards and two touchdowns, 4 interceptions of Southwestern passes, and a 28 yard run on a fake punt; Mark Nelson, went all the way both on offense and defense and scored 19 defensive points which is 7 above average for a defensive lineman; Paul Daniels and Don Hamlin, picked up 62 and 44 yards respectively; and Wash Walker, who played the game on a gimpy ankle and scored one on a four yard run.

Others playing outstanding games were: Dean Hluchan, Larry Godley, Jim Coddington, Tom Hunt, Dave Schroeder, and the entire offensive line.

The Griffs had to come from behind to pull the contest out of the bag with two fourth quarter tallies, both passes from Walker to Nuttall, after the Apaches led 13-7 at the end of three periods.

The win was also the first victory for head coach Bob Rump. The Griffs have now defeated the Apaches 3 out of the 4 times the teams have met on the gridiron.

Recut Tires Illegal; Running Lamps O.K.

Recut or regrooved tires became illegal for use on automobiles in California Sept. 17.

New sections of the state's vehicle code which became effective on that date not only prohibit the sale of such tires and passenger vehicles equipped with them but require persons to quit using any they may now have on their cars, Bradford M. Crittenden, commissioner of the California Highway Patrol, has declared.

"The law is aimed at preventing accidents caused by failure of such tires," he said. "It supports another new provision that requires the highway patrol to adopt regulations concerning carcass strength, size and load capacity, and performance and mounting characteristics of new passenger vehicle tires. The same law prohibits the sale of new passenger tires that are not in compliance with the regulations."

The Patrol official said appropriate standards will be established as soon as possible and the regulations will become effective six months after they are adopted.

Two white or amber "running lamps" of a type that has been approved by the California Highway Patrol may be installed at each side of the front of a car, but they cannot be used during darkness when regular headlamps are required. They can be used after dark while the vehicle is parked. (The Patrol has not yet approved any running lamps and does not expect to before early next year, when research now under way is completed.

Any vehicle disabled upon the roadway, or parked car or disabled within 10 feet of the roadway, may flash all four turn signal lamps simultaneously as warning lights.

A red door-mounted lamp or reflector visable to the rear when the door is open is now permitted.

Campers sold after January 1, 1966, must be equipped with approved safety glass wherever glass or glazing materials are used in outside windows and doors. In addition, safety glass must be used when replacing outside windows or doors on any camper.

Two mirrors, one to be on the left-hand side, will be required on all motor vehicles except motorcycles manufactured after Jan. 1, 1966.

Semaphore mechanical turn signals are no longer legal.

Four-wheel drive vehicles weighing less than 5,000 pounds unladen may use snow tires on all four wheels in chain-control areas, except that high authorities may require chains on such vehicles under extremely hazardous conditions.

VOTE 'YES' ON BONDS NEXT TUESDAY

The Grossmont - Cajon Valley League of Women Voters endorses and actively supports the passage of the Grossmont Junior College bond issue in the amount of $3.5 million to be presented to the voters on October 19, 1965.

We urge your support of this bond issue for the following reasons:

The formation of a Junior College District was approved by the voters in November, 1960, by a 3 to 1 majority.

Current enrollment at the college is 3337 day students and 1397 night students. A conservative estimate of 4000 day students is anticipated by 1970. The education of these students is an obligation of the Grossmont Junior College District residents. If facilities are not available in our district, it will be necessary for our high school graduates to attend other junior colleges at the expense of the taxpayer of the Grossmont District. The cost of borrowing facilities in another district could lead to an automatic tax increase in the Grossmont District.

The cost to the student and parent is lower in junior colleges. The junior college is tuition free and is located in the community where the student lives. This places higher education within the reach of all who desire and can profit from it.

The current tax rate for bond redemption of the existing facilities is 8¢. The average tax increase over a 20-year period is estimated at 5½ cents per $100 valuation. The current .35 operational tax is expected to remain constant.

As a fully accredited college, students preparing to enter a four-year college are eligible for transfer. 64% of students graduated by all branches of the University of California in June, 1964, started their college careers at a California public junior college.

Only 1/8 of the high school graduates are eligible to enter State Universities and 1/3 are eligible to enter State Colleges. The higher entrance requirements are due to the over-crowded conditions of the four-year colleges. All high school graduates are eligible to attend junior college.

In addition to enhancing the community, a complete junior college promotes industries, especially those demanding technological skills. 80% of the operating budget is spent locally. Both of these factors are a boon to local economy.

A 1500 seat community auditorium on the campus would be a cultural asset to the community. Private donations will finance half of the cost of the auditorium.

This is a reprint of material published and distributed under the direction of the Legislative Action portfolio of the League of Women Voters of Grossmont-Cajon Valley, October, 1965.

Former Gov. To Speak To DeMolays

Wilber M. Brucker, former Governor of Michigan and Secretary of the Army under President Eisenhower, will be the honored guest and principal speaker at the Investure of the DeMolay Legion of Honor, on Oct. 23, at the Scottish Rite Masonic Memorial Center, in Mission Valley.

Brucker, who is the Grand Master of the Knights Templar in the United States, is making a special trip to San Diego to attend the DeMolay ceremony, according to Frank F. Jones, Commander of San Diego Commandery No. 25, Knights Templar.

Jones said that Brucker will speak at a banquet that will precede the DeMolay investiture. The banquet is scheduled to begin at 6 p.m., with the ceremonial portion of the program scheduled for 8:10 p.m. Reservations, he said, will be required for the dinner and may be secured at the Scottish Rite Masonic Memorial Center, 1895 Camino del Rio, in Mission Valley.

Six Masonic leaders are scheduled to be inducted into the DeMolay Legion of Honor during the Oct. 23 ceremony. They are Robert M. Rewick, Past Grand Commander, Knight Templar of California; Frederick S. Weed, former Inspector, Grand Lodge, Free and Accepted Masons of California; Paul E. Brown, Venerable Master, San Diego Scottish Rite Bodies; Judge George E. Bryans, Illustrious Potentate, Al Bahr Shrine Temple, San Diego; Lloyd E. Griffin, Past Grand Patron, Order of the Eastern Star of California; and George G. Verbryck, past general Grand Master, Council of Royal and Select Masters, International.

The DeMolay Legion of Honor is the highest degree and honor conferred by the International Supreme Council of the Order of DeMolay.

Citation Issue Drops In Sept.

The traffic division of the San Diego Juvenile Court received 2105 citations during the month of Sept., 1965, according to a report released by Bernard S. Schwartz, Supervising Traffic Hearing Officer. This was a slight drop from the 2341 received in Aug., 1965.

Pedestrain and bicycle violations comprised approximately one-third of the citations heard. There were 236 citations transferred to residents of other counties and 105 transferred to the military service for informal handling.

Among vehicle violations, the most common remained as excessive speed, numbering 373 of the the 1768 code violations for drivers.

Violations were received from enforcement agencies, as follows: San Diego—1408; Coronado—9; National City—25; Imperial Beach—17; El Cajon—68; Chula Vista—45; CHP North—132; CHP South—161; Oceanside—39; Escondido — 49; La Mesa—75; Carlsbad—9; Sheriff—36; and other jurisdictions—32.

Schwartz warned that the month of Oct. is normally one of considerable change in weather and lighting conditions. There is a greater need for caution under these conditions if collisions are to be avoided. This difficulty with the law or traffic is particularly true of the group of young inexperienced drivers. Parents should make a special effort to be sure their young drivers get experience in driving under adverse conditions while being supervised by an experienced driver, he added.

California's farm economy will be enriched by nearly $20 million during this year by the purchases of the California brewing industry.
